

Contract Vehicles – U.S. Army Corps of Engineers

Trevet is a small business headquartered in San Diego, CA, which has supported the Department of Defense mission of environmental stewardship for more than 20 years. Architect-engineering and professional services in the areas investigation, compliance, and restoration services and military munitions response support are provided to the Army and Air Force, as well as the Navy, Marine Corps, and other customers.

Past Performance

Trevet has provided environmental services under the CERCLA, RCRA, and petroleum programs to the USACE through the Northwestern and Southwestern Divisions. As managing partner in 8(a) joint venture and as part of a small business joint venture, **Trevet** was awarded two USACE environmental remediation services MATOCs in 2020 and A-E environmental services indefinite delivery contracts in 2017 and 2019, with total combined pooled capacity of over \$115 million. In 2016 and 2017, three single award task order contracts for environmental remediation services and military munitions response services value at \$12 million were awarded to **Trevet**.
